

Festival of Tastes

Houfard Food Production Engineering Company (Badr), is officially started in 1970 at small land on Shahriyar region, with the purpose of health advantage & productive usage of food stuffs, by producing two kinds of jam (carrot & pergamont). From 2009, in following of technology changes and trusting to power and experience of Iranian staffs, this company has expanded his activity with more than 60 kinds of products with launch of modern factory in Robat Karim region on 2 hectares of area with 15000 square meters construction. Now Badr by using modern and advanced machinery and technology, equipped packing system, experienced staffs, strong and knowledge base management team not only achieved the highest rank between domestic competitors in the field of production and distribution of types of pickle, pickled cucumber, olive, jam, non-meat can, syrup, lemon juice, sour grape juice also can dedicate worthy contribution

of food exporting to America, Australia, Canada, European & Asian Countries between his export-er competitor.

By using modern industrial management and high quality raw materials, Houfard Company has tried to stay faithfulness in producing high quality and various food productions. In this regard with producing new and various production like Spanish pickled, Muhammara pickled, Salsa pickled & ... Badr could make rainbow tastes that cause to enjoy the tasteful and taster consumers.

This industrial complex has been could expanded his activity by creating sale agents, chain stores and horoeke by making high confident of trust and contract with chain stores in all over country and distribution channels.

We try to make effective production and distribution to customer satisfaction and now think to guarantee all over world people health by using Badr products.
